portuguese furniture manufacturer **two.six** presents 'bi silla' by **silvia ceñal idarreta** among their collection at the 2014 **ICFF** in new york city. not wanting to design another simple chair, **ceñal idarreta** creates a piece in which one feels sheltered by exceptional fabrics in fresh colors and soft cushions.

thanks to its symmetry, bi silla can be adapted to different places and form various figures according to its distribution
image © silvia ceñal and two.six

the stylish and comfortable chair is designed for lobbies and gathering spaces. its symmetrical form allows adaptation to different areas with various figures, layouts and distribution. the mid-rise back and side allow arrangement as a place for an individual, or a loveseat for two. facing outward occupants have more privacy, while turned around it becomes a communal site for engagement. 'bi silla' is created with a natural oak frame, and covered with fabrics by **revira CS**. a complementary side table fits easily into any arrangement of the lounge furniture.

the chair measures W 26in x D 26in x H 29.9in (W 66cm x D 66cm x H 76cm)
