SWEET TREAT

Spanish product designer Silvia Ceñal's Macaron floor lamps are an extension of her 2016 range of macaron pendant lamps. Developed with Lithuanian company Emko, these were first launched at the Masion et Objet fair last year. These minimally designed lights take their name from the eponymous confection. The two wooden hoops are strung together with a cord. Just as the sweet is available in different flavours, the floor lamp is offered in options of multiple colours. Use it in a relaxed corner or even as an overhead reading light – this lamp is sure to imbibe an element of playfulness in any space.
